VOLUME 72: SUBJECT INDEX

A

Accessory pathway ablation, Recurrence rate after accessory pathway ablation, 571

Adrenergic activity, Influence of increased adrenergic activity and magnesium depletion on cardiac rhythm in alcohol withdrawal, 554

Age dependent equations, Age and body surface area related normal upper and lower limits of M mode echocardiographic measurements and left ventricular volume and mass from infancy to early adulthood, 276

Alacepril, Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure, 528

Alcohol withdrawal, Influence of increased adrenergic activity and magnesium depletion on cardiac rhythm in alcohol withdrawal, 554

Alteplase, Tissue plasminogen activator (alteplase) treatment for femoral artery thrombosis after cardiac catheterisation in infants and children: *letter*, 403

Alveolar/capillary membrane resistance, Increased alveolar/capillary membrane resistance to gas transfer in patients with chronic heart failure, 140

Ambulatory ST segment monitoring, Asymptomatic ischaemia during daily life in stable coronary disease: relevant or redundant? *review*, 5

Amiodarone

Amiodarone management of junctional ectopic tachycardia after cardiac surgery in children, 261

Two cases of amiodarone-induced thyrotoxicosis successfully treated with a short course of antithyroid drugs while amiodarone was continued, 266

Angina

Asymptomatic ischaemia during daily life in stable coronary disease: relevant or redundant? *review*, 5

Early release of glycogen phosphorylase in patients with unstable angina and transient ST-T alterations, 125

Effects of ACE inhibitors on coronary haemodynamics and angina pectoris, **S3.52 Sept.**

Is warm-up in angina ischaemic preconditioning? *editorial*, 213

Angiotensin converting enzyme, Are polymorphisms in the ACE gene a potent genetic risk factor for restenosis: *commentary*, 101

Angiotensin converting enzyme inhibitors/inhibition

ACE inhibitors: current understanding and future directions: *foreword*, **S3.1 Sept.**

ACE inhibitors for heart failure: a question of dose, **S3.106 Sept.**

ACE inhibitors in non-diabetic renal disease, **S3.46 Sept.**

Diverse factors influencing angiotensin metabolism during ACE inhibition: insights from molecular biology and genetic studies, **S3.3 Sept.**

Effect of ACE inhibitors on the atrial natriuretic peptides in heart failure: *commentary*, 504

Effects of ACE inhibitors on coronary atherosclerosis and restenosis, **S3.57 Sept.**

Effects of ACE inhibitors on coronary haemodynamics and angina pectoris, **S3.52 Sept.**

Endothelial dysfunction in heart failure and potential for reversal by ACE inhibition, **S3.11 Sept.**

How do ACE inhibitors reduce mortality in patients with left ventricular dysfunction with and without heart failure: remodelling, resetting, or sudden death? **S3.81 Sept.**

Influence of angiotensin converting enzyme inhibition on relation of atrial natriuretic peptide concentration to atrial pressure in heart failure, 521

Insights from animal models of myocardial infarction: do ACE inhibitors limit the structural response? **S3.61 Sept.**

Is neurohormonal activation a major determinant of the response to ACE inhibition in left ventricular dysfunction and heart failure? **S3.75 Sept.**

Medical treatment beyond ACE inhibition: false promise or lack of vision? **S3.100 Sept.**

Renoprotective role of ACE inhibitors in diabetic nephropathy, **S3.38 Sept.**

Responses of plasma concentrations of A type natriuretic peptide and B type natriuretic peptide to alacepril, an angiotensin-converting enzyme inhibitor, in patients with congestive heart failure, 528

Role of ACE inhibitors in hypertension complicated by vascular disease, **S3.33 Sept.**

Role of ACE inhibitors in hypertension with left ventricular hypertrophy, **S3.24 Sept.**

Role of ACE inhibitors in uncomplicated essential hypertension, **S3.15 Sept.**

Hyperlipidaemia, A cautionary tale of undetected hyperlipidaemia: implications for coronary artery bypass grafting, **468**
Hyperlipideamia, Inadequate management of hyperlipidaemia after coronary bypass surgery shown by medical audit, **466**

Hypertension
Role of ACE inhibitors in hypertension complicated by vascular disease, **S3.33 Sept.**
Role of ACE inhibitors in hypertension with left ventricular hypertrophy, **S3.24 Sept.**
Role of ACE inhibitors in uncomplicated essential hypertension, **S3.15 Sept.**

Hypertrophic cardiomyopathy
Electrophysiological investigation of patients with hypertrophic cardiomyopathy, **S6.19 Dec.**
Genetic investigation and counselling of families with hypertrophic cardiomyopathy: *editorial*, **99**
Hypertrophic cardiomyopathy: introduction to pathology and pathogenesis, **S6.2 Dec.**
Multiple disease genes cause hypertrophic cardiomyopathy, **S6.4 Dec.**
Natural history of hypertrophic cardiomyopathy, **S6.10 Dec.**
Risk factors and stratification for sudden cardiac death in patients with hypertrophic cardiomyopathy, **S6.13 Dec.**
The electrocardiogram is a more sensitive indicator than echocardiography of hypertrophic cardiomyopathy in families with a mutation in the MYH7 gene, **105**; *correction*, **497**

Hypoxaemia
Hypoxaemia during transoesophageal echocardiography, **133**
Nocturnal hypoxaemia after myocardial infarction, **23**

I

Immunosuppressive treatment, Immunosuppressive treatment for myocarditis and borderline myocarditis in children with ventricular ectopic rhythm, **354**
Inotropic agents, Inotropic agents for heart failure: what if digoxin increases mortality? **S3.92 Sept.**
Inoue balloon, A comparison of cylindrical and Inoue balloon techniques for mitral valvotomy in patients in the United Kingdom, **486**
Insulin resistance, Insulin resistance, high prevalence of diabetes, and cardiovascular risk in immigrant Asians, **413**
Intermittent ischaemic arrest, Intermittent ischaemic arrest and cardioplegia in coronary artery surgery: coming full circle?, **136**
Internal mammary artery grafting, A comparison of early mortality and morbidity after single and bilateral internal mammary artery grafting with the free right internal mammary artery, **321**
Internal thoracic artery, Transcutaneous ultrasound assessment of internal thoracic artery to coronary artery grafts in patients with and without ischaemic symptoms, **476**
Intracardiac repair, Effect of intracardiac repair on biosynthesis of thromboxane A_2 and prostacyclin in children with a left to right shunt, **452**
Intracoronary stent insertion, Anticoagulation after intracoronary stent insertion, **294**
Intravascular ultrasound, Intravascular ultrasound, an inside view: *editorial*, **97**

Ischaemia
Asymptomatic ischaemia during daily life in stable coronary disease: relevant or redundant? *review*, **5**
Transcutaneous ultrasound assessment of internal thoracic artery to coronary artery grafts in patients with and without ischaemic symptoms, **476**

Ischaemic heart disease, Regional myocardial velocity imaged by magnetic resonance in patients with ischaemic heart disease, **332**
Ischaemic preconditioning, Is warm-up in angina ischaemic preconditioning? *editorial*, **213**

J

Junctional ectopic tachycardia, Amiodarone management of junctional ectopic tachycardia after cardiac surgery in children, **261**

L

Large arteries, Large arteries are more than passive conduits: *editorial*, **3**
Left anterior descending coronary artery, Anomalous course of the left anterior descending coronary artery between the aorta and pulmonary trunk: a rare cause of myocardial ischaemia at rest, **397**
Left atrium, Non-smoke spontaneous contrast in left atrium intensified by respiratory manoeuvres: a new transoesophageal echocardiographic observation, **446**
Left central pulmonary artery, Maldevelopment of conotruncal and aorto-pulmonary septum with absent left central pulmonary artery: anatomical and clinical implications: *letter*, **210**
Left to right shunt, Effect of intracardiac repair on biosynthesis of thromboxane A_2 and prostacyclin in children with a left to right shunt, **452**
Left ventricle, Diagnosis, treatment, and long-term follow up of a patient with a hydatid cyst of the left ventricle, **592**
Left ventricular diastolic function, Absent septal q wave: a marker of the effects of abnormal activation pattern on left ventricular diastolic function, **45**
Left ventricular dilatation, Association between reduced heart rate variability and left ventricular dilatation in patients with a first anterior myocardial infarction, **514**
Left ventricular disease, Abnormal subendocardial function in restrictive left ventricular disease, **237**

Left ventricular dysfunction
Detection of left ventricular dysfunction aftr acute myocardial infarction, **16**
Heart rate variability in left ventricular dysfunction and heart failure: effects and implications of drug treatment: *review*, **509**
How do ACE inhibitors reduce mortality in patients with left ventricular dysfunction with and without heart failure: remodelling, resetting, or sudden death? **S3.81 Sept.**
Is neurohormonal activation a major determinant of the response to ACE inhibition in left ventricular dysfunction and heart failure? **S3.75 Sept.**

Left ventricular hypertrophy, Role of ACE inhibitors in hypertension with left ventricular hypertrophy, **S3.24 Sept.**
Left ventricular outflow tract, Morphology of left ventricular outflow tract structures in patients with subaortic stenosis and a ventricular septal defect, **251**
Left ventricular pump function, Effect of increased wall thickness on indices of left ventricular pump function in children, **182**
Lifestyle changes, How do changes in lifestyle complement medical treatment in heart failure? **S3.87 Sept.**
Loop diuretics, Pharmacokinetics of loop diuretics in congestive heart failure, **S2.40 Aug.**

M
M mode echocardiographic measurements, Age and body surface area related normal upper and lower limits of M mode echocardiographic measurements and left ventricular volume and mass from infancy to early adulthood, **276**
Magnesium depletion, Influence of increased adrenergic activity and magnesium depletion on cardiac rhythm in alcohol withdrawal, **554**
Magnetic resonance, Regional myocardial velocity imaged by magnetic resonance in patients with ischaemic heart disease, **332**
Magnetic resonance imaging, Preoperative assessment of cor triatriatum in an adult by dynamic three dimensional echocardiography was more informative than transoesophageal echocardiography or magnetic resonance imaging, **498**
Marfan's syndrome, Prevention of root dilatation in Marfan's syndrome: *abstracts in cardiology*, **111**
Medical audit, Inadequate management of hyperlipidaemia after coronary bypass surgery shown by medical audit, **466**
Menstrual cycle, Peak expiratory nitric oxide differences in men and women: relation to menstrual cycle, **243**
3-Methylglutaconic aciduria, Dilated cardiomyopathy due to type II X-linked 3-methylglutaconic aciduria: successful treatment with pantothenic acid, **349**
Mitral regurgitation
Effect of captopril on functional mitral regurgitation in dilated heart failure, **63**
Mitral regurgitation determined by radionuclide cardiography: dependence on posture and exercise, **156**
Mitral stenosis, Comparisons between female and male patients with mitral stenosis, **567**
Mitral valvotomy, A comparison of cylindrical and Inoue balloon techniques for mitral valvotomy in patients in the United Kingdom, **486**
Mortality
Cardiac Infarction Injury Score predicts cardiovascular mortality in apparently healthy men and women, **39**
Changing mortality in dilated cardiomyopathy, **S6.46 Dec.**
Muscle fatigue, Symptoms and quality of life in heart failure: the muscle hypothesis, **S2.36 Aug.**
Mustard operation, Balloon dilatation of complete obstruction of the superior vena cava after Mustard operation for transposition of great arteries, **482**
Mustard procedure, Transcatheter stent implantation for recurrent pulmonary venous pathway obstruction after the Mustard procedure, **85**
MYH7 gene, The electrocardiogram is a more sensitive indicator than echocardiography of hypertrophic cardiomyopathy in families with a mutation in the MYH7 gene, **105**; *correction*, **497**
Myocardial infarction
Assessment by general practitioners of suitability for thrombolysis in patients with suspected acute myocardial infarction: *letter*, **209**
Association between reduced heart rate variability and left ventricular dilatation in patients with a first anterior myocrdial infarction, **514**
Comparison of diagnostic accuracy, time dependency, and prognostic impact of abnormal Q waves, combined electrocardiographic criteria, and ST segment abnormalities in right ventricular infarction, **119**
Contribution of creatine kinase MB mass concentration at admission to early diagnosis of acute myocardial infarction, **112**
Detection of left ventricuiar dysfunction after acute myocardial infarction, **16**
Insights from animal models of myocardial infarction: do ACE inhibitors limit the structural response? **S3.61 Sept.**
Neuroendocrine activation after myocardial infarction, **S3.65 Sept.**
Nocturnal hypoxaemia after myocardial infarction, **23**
Raised plasma endothelin in unstable angina and non-Q wave myocardial infarction: relation to cardiovascular outcome, **436**
What to expect from ACE inhibitors after myocardial infarction, **S3.70 Sept.**
Myocardial ischaemia
Anomalous course of the left anterior descending coronary artery between the aorta and pulmonary trunk: a rare cause of myocardial ischaemia at rest, **397**
Comparative aoility of dobutamine and exercise stress in inducing myocardial ischaemia in active patients, **31**; *correction*, **590**
Neurostimulation and myocardial ischaemia: *letter*, **595**
Myocardial phenotype changes, Myocardial phenotype changes in heart failure: cellular and subcellular adaptations and their functional significance, **S2.10 Aug.**
Myocarditis
Immunosuppressive treatment for myocarditis and borderline myocarditis in children with ventricular ectopic rhythm, **354**
Increased circulating cytokines in patients with myocarditis and cardiomyopathy, **561**
Role of right ventricular endomyocardial biopsy in infants and children with suspected or possible myocarditis, **360**
Myosin heavy chain gene, Multiple disease genes cause hypertrophic cardiomyopathy, **S6.4 Dec.**

N
Neural regulatory mechanisms, Heart rate variability and clinical cardiology: *letter*, **593**
Neuroendocrine activation, Neuroendocrine activation after myocardial infarction, **S3.65 Sept.**
Neuroendocrine effects, Neuroendocrine effects of diuretics in heart failure, **S2.51 Aug.**
Neuroendocrine excitation, Neuroendocrine excitation in heart failure, **S2.28 Aug.**
Neurohormonal activation
Is neurohormonal activation a major determinant of the response to ACE inhibition in left ventricular dysfunction and heart failure? **S3.75 Sept.**
Neurohormonal activation in patients with mild or moderately severe congestive heart failure and effects of ramipril, **422**
Neurohumoral axis inhibition, Apparent paradox of neurohumoral axis inhibition after body fluid volume depletion in patients with chronic congestive heart failure and water retention, **534**
Neurostimulation, Neurostimulation and myocardial ischaemia: *letter*, **595**
Nitric oxide, Peak expiratory nitric oxide differences in men and women: relation to menstrual cycle, **243**
Nocturnal hypoxaemia, Nocturnal hypoxaemia after myocardial infarction, **23**
Notices, **96**, **212**, **302**, **404**, **500**, **596**

O
Occluded coronary artery
Angioplasty of occluded coronary arteries: is it worth the effort? *editorial*, **1**
Termination of reperfusion arrhythmia by coronary artery occlusion, **94**
Osteomyelitis, A case of osteomyelitis secondary to endocarditis, **298**
Outpatients, A pilot study of coronary angioplasty in outpatients, **12**

P
Pacemakers
Antibiotic prophylaxis in permanent pacemaker implantation, **339**
Evaluation of six minute walking test in patients with single chamber rate responsive pacemakers, **192**
Pacing
Advances in rate responsive pacing? *editorial*, **405**
Issues in cardiac pacing: can agism be justified? *editorial*, **102**
Prognosis in patients with diphtheric myocarditis and bradyarrhythmias: assessment of results of ventricular pacing, **190**
Palpitations, Non-cardiac chest pain and benign palpitations in the cardiac clinic, **548**
Pantothenic acid, Dilated cardiomyopathy due to type II X-linked 3-Omethylglutaconic aciduria: successful treatment with pantothenic acid, **349**
Patent foramen ovale
Near miss paradoxical embolism, **293**
Non-smoke spontaneous contrast in left atrium intensified by respiratory manoeuvres: a new transoesophageal echocardiographic observation, **446**
Percutaneous fenestration, Effect of percutaneous fenestration of the atrial septum on protein-losing enteropathy after the Fontan operation, **591**
Percutaneous transcatheter, Percutaneous transcatheter retrieval of misplaced therapeutic embolisation devices, **470**
Percutaneous transluminal coronary angioplasty
A pilot study of coronary angioplasty in outpatients, **12**
Angioplasty of occluded coronary arteries: is it worth the effort? *editorial*, **1**
Emergency surgical revascularisation for coronary angioplasty complications, **428**
Surgical cover for angioplasty, **506**
Pericardial effusion, Pericardial effusion after cardiac surgery: incidence, site, size, and haemodynamic consequences, **327**
Perimembranous ventricular septal defect, Primary transcatheter umbrella closure of perimembranous ventricular septal defect, **368**
Peripheral arteries, Use of B mode ultrasound of peripheral arteries as an end point in clinical trials: *editorial*, **501**
Peripheral circulatory adaptations, Peripheral circulatory adaptations to pump failure of the heart, **S2.22 Aug.**
Peripheral vascular disease, Peripheral vascular disease: consequence for survival and association with risk factors in the Speedwell prospective heart disease study, **128**
Persistent arterial duct, Umbrella occlusion of persistent arterial duct in children under two years, **364**
Platelet aggregation, Inhibition of platelet aggregation by transdermal glyceryl trinitrate, **575**
Posture, Mitral regurgitation determined by radionuclide cardiography: dependence on posture and exercise, **156**
Pregnancy, Successful use of flecainide to treat new onset maternal ventricular tachycardia in pregnancy, **297**

Prostacyclin, Effect of intracardiac repair on biosynthesis of thromboxane A_2 and prostacyclin in children with a left to right shunt, **452**
Protein-losing enteropathy, Effect of percutaneous fenestration of the atrial septum on protein-losing enteropathy after the Fontan operation, **591**
Pseudoaneurysm, Pseudoaneurysm of the femoral artery after cardiac catheterisation, **80**
Pulmonary atresia, Thrombolysis of a modified Blalock-Taussig shunt with recombinant tissue plasminogen activator in a newborn infant with pulmonary atresia and ventricular septal defect, **201**
Pulmonary embolism, Cross sectional Doppler echocardiography as the initial technique for the diagnosis of acute pulmonary embolism, **52**
Pulmonary hypertension, Comparison of Doppler derived haemodynamic variables and simultaneous high fidelity pressure measurements in severe pulmonary hypertension, **384**
Pulmonary venous pathway obstruction, Transcatheter stent implantation for recurrent pulmonary venous pathway obstruction after the Mustard procedure, **85**
Pump failure, Peripheral circulatory adaptations to pump failure of the heart, **S2.22 Aug.**

Q
Q waves, Comparison of diagnostic accuracy, time dependency, and prognostic impact of abnormal Q waves, combined electrocardiographic criteria, and ST segment abnormalities in right ventricular infarction, **119**
QT dispersion, Adjustment of QT dispersion assessed from 12 lead electrocardiograms for different numbers of analysed electrocardiographic leads: comparison of stability of different methods, **390**
QT interval, QT interval in anorexia nervosa, **69**
Quality of life
Diuretic induced changes in symptoms and quality of life, **S2.57 Aug.**
Symptoms and quality of life in heart failure: the muscle hypothesis, **S2.36 Aug.**
Treatment of severe heart failure: quantity or quality of life? A trial of enoximone, **226**

R
Radiofrequency catheter ablation
Appropriate indications for radiofrequency catheter ablation: *commentary*, **407**
Is ventricular ectopy a legitimate target for ablation?, **492**
Radiofrequency catheter ablation of septal accessory atrioventricular pathways, **281**
Recurrence rate after accessory pathway ablation, **571**
Radionuclide cardiography, Mitral regurgitation determined by radionuclide cardiography: dependence on posture and exercise, **156**
Ramipril, Neurohormonal activation in patients with mild or moderately severe congestive heart failure and effects of ramipril, **422**
Rate responsive pacing, Advances in rate responsive pacing? *editorial*, **405**
Recombinant tissue plasminogen activator, Thrombolysis of a modified Blalock-Taussig shunt with recombinant tissue plasminogen activator in a newborn infant with pulmonary atresia and ventricular septal defect, **201**
Regional myocardial velocity, Regional myocardial velocity imaged by magnetic resonance in patients with ischaemic heart disease, **332**
Reheparinisation, Reheparinisation requirements after cardiopulmonary bypass in patients treated with aprotinin, **442**
Remodelling, Cardiac remodelling: *editorial*, **315**
Renal diabetic disease, Renoprotective role of ACE inhibitors in diabetic nephropathy, **S3.38 Sept.**
Renal disease, ACE inhibitors in non-diabetic renal disease, **S3.46 Sept.**
Reperfusion arrhythmia, Termination of reperfusion arrhythmia by coronary artery occlusion, **94**
Respiratory manoeuvres, Non-smoke spontaneous contrast in left atrium intensified by respiratory manoeuvres: a new transoesophageal echocardiographic observation, **446**
Restenosis
Are polymorphisms in the ACE gene a potent genetic risk factor for restenosis: *commentary*, **101**
Effects of ACE inhibitors on coronary atherosclerosis and restenosis, **S3.57 Sept.**
Restrictive left ventricular disease, Abnormal subendocardial function in restrictive left ventricular disease, **237**
Revascularisation
Emergency surgical revascularisation for coronary angioplasty complications, **428**
Trends in the age and sex of patients undergoing coronary revascularisation in the United Kingdom 1987-93, **317**
Right ventricular endomyocardial biopsy, Role of right ventricular endomyocardial biopsy in infants and children with suspected or possible myocarditis, **360**
Right ventricular infarction, Comparison of diagnostic accuracy, time dependency, and prognostic impact of abnormal Q waves, combined electrocardiographic criteria, and ST segment abnormalities in right ventricular infarction, **119**
Right ventricular outflow tract, Acute dissection of the right ventricular outflow tract after balloon dilatation in a patient with previously corrected tetralogy of Fallot, **203**
Risk factors, Comparative study of risk factors in patients undergoing coronary or femoropopliteal artery bypass grafting, **542**
Risk stratification, Heart rate variability and clinical cardiology: *letter*, **593**
Rupture, Traumatic rupture of the thoracic aorta diagnosed by transoesophageal echocardiography: *letter*, **210**
Ruptured aortic dissection, Ruptured aortic dissection into the left atrium which presented as congestive heart failure and was diagnosed by transoesophageal echocardiography, **400**

S
Salbutamol, Unsuspected coronary artery disease revealed by administration of nebulised salbutamol, **181**
Saphenous vein bypass grafts
Clinical experience with the Wiktor stent in native coronary arteries and coronary bypass grafts, **288**
Self expanding stents for the management of aorto-ostial stenoses in saphenous vein bypass grafts, **285**
Self expanding stents
Self expanding stents in congenital heart disease, **378**
Self expanding stents for the management of aorto-ostial stenoses in saphenous vein bypass grafts, **285**
Septal accessory atrioventricular pathways, Radiofrequency catheter ablation of septal accessory atrioventricular pathways, **281**
Septal q wave, Absent septal q wave: a marker of the effects of abnormal activation pattern on left ventricular diastolic function, **45**
Signal averaged electrocardiogram, New sex dependent normal limits of the signal averaged electrocardiogram, **197**
Six minute walking test, Evaluation of six minute walking test in patients with single chamber rate responsive pacemakers, **192**
Smoking, Smoking and coronary artery bypass surgery: *a personal view*, **9**
Speedwell prospective heart disease study, Peripheral vascular disease: consequence for survival and association with risk factors in the Speedwell prospective heart disease study, **128**
ST segment, Comparison of diagnostic accuracy, time dependency, and prognostic impact of abnormal Q waves, combined electrocardiographic criteria, and ST segment abnormalities in right ventricular infarction, **119**
Stable angina, Asymptomatic ischaemia during daily life in stable coronary disease: relevant or redundant? *review*, **5**
Stable coronary disease, Asymptomatic ischaemia during daily life in stable coronary disease: relevant or redundant? *review*, **5**
Stents
Anticoagulation after intracoronary stent insertion, **294**
Clinical experience with the Wiktor stent in native coronary arteries and coronary bypass grafts, **288**
Self expanding stents in congenital heart disease, **378**
Self expanding stents for the management of aorto-ostial stenoses in saphenous vein bypass grafts, **285**
Transcatheter stent implantation for recurrent pulmonary venous pathway obstruction after the Mustard procedure, **85**
Streptokinase, Pre-dosing antibody levels and efficacy of thrombolytic drugs containing streptokinase, **222**
Streptokinase antibodies, Streptokinase antibodies are of clinical importance and they can be measured in half an hour by a simple enzyme-linked immunosorbent assay: *letter*, **209**
Stress lesions, Frequency of stress lesions of the upper gastrointestinal tract in paediatric patients after cardiac surgery: effects of prophylaxis, **186**
Subaortic stenosis, Morphology of left ventricular outflow tract structures in patients with subaortic stenosis and a ventricular septal defect, **251**
Subendocardial function, Abnormal subendocardial function in restrictive left ventricular disease, **237**
Sudden cardiac death
Decreased heart rate variability in survivors of sudden cardiac death not associated with coronary artery disease: *letter*, **299**
Electrophysiological investigation of patients with hypertrophic cardiomyopathy, **S6.19 Dec.**
Heart rate variability and clinical cardiology: *letter*, **593**
Risk factors and stratification for sudden cardiac death in patients with hypertrophic cardiomyopathy, **S6.13 Dec.**
Superior vena cava, Balloon dilatation of complete obstruction of the superior vena cava after Mustard operation for transposition of great arteries, **482**
Surgical cover, Surgical cover for angioplasty, **506**
Syncope, Head-up tilt testing, the balance of evidence: *editorial*, **216**

T

Tetralogy of Fallot
Acute dissection of the right ventricular outflow tract after balloon dilatation in a patient with previously corrected tetralogy of Fallot, **203**
Ventricular late potentials and spontaneous ventricular arrhythmias after surgical repair of tetralogy of Fallot: do they have pronostic value?, **580**

Thallium stress imaging, Dipyridamole and dobutamine for myocardial perfusion imaging: *letter*, **594**

Therapeutic embolisation devices, Percutaneous transcatheter retrieval of misplaced therapeutic embolisation devices, **470**

Thoracic aorta, Traumatic rupture of the thoracic aorta diagnosed by transoesophageal echocardiography: *letter*, **210**

Thoracic aortic dissection, Transoesophageal echocardiography as the sole diagnostic investigation in patients with suspected thoracic aortic dissection, **461**

Thromboemboli, Clinical implications of the morphological features of central pulmonary artery thromboemboli shown by transoesophageal echocardiography, **58**

Thrombolysis
Assessment by general practitioners of suitability for thrombolysis in patients with suspected acute myocardial infarction: *letter*, **209**
Pre-dosing antibody levels and efficacy of thrombolytic drugs containing streptokinase, **222**
Thrombolysis, the general practitioner, and the electrocardiogram: *personal view*, **220**

Thromboxane A_2, Effect of intracardiac repair on biosynthesis of thromboxane A_2 and prostacyclin in children with a left to right shunt, **452**

Thyrotoxicosis, Two cases of amiodarone-induced thyrotoxicosis successfully treated with a short course of antithyroid drugs while amiodarone was continued, **266**

Tilt table testing, Head-up tilt testing, the balance of evidence: *editorial*, **216**

Tissue plasminogen activator, Tissue plasminogen activator (alteplase) treatment for femoral artery thrombosis after cardiac catheterisation in infants and children: *letter*, **403**

Torsade de pointes tachycardia, Epiglottitis and torsade de pointes tachycardia, **205**

Training programme, More winds of change: the provision of cardiological services in the United Kingdom: *editorial*, **218**

Transcatheter closure, Transcatheter closure of interatrial communications with a modified umbrella device, **372**

Transcatheter stent implantation, Transcatheter stent implantation for recurrent pulmonary venous pathway obstruction after the Mustard procedure, **85**

Transcatheter umbrella closure, Primary transcatheter umbrella closure of perimembranous ventricular septal defect, **368**

Transcutaneous ultrasound, Transcutaneous ultrasound assessment of internal thoracic artery to coronary artery grafts in patients with and without ischaemic symptoms, **476**

Transient ST-T alterations, Early release of glycogen phosphorylase in patients with unstable angina and transient ST-T alterations, **125**

Transoesophageal echocardiography
Clinical implications of the morphological features of central pulmonary artery thromboemboli shown by transoesophageal echocardiography, **58**
Hypoxaemia during transoesophageal echocardiography, **133**
Non-smoke spontaneous contrast in left atrium intensified by respiratory manoeuvres: a new transoesophageal echocardiographic observation, **446**
Preoperative assessment of cor triatriatum in an adult by dynamic three dimensional echocardiography was more informative than transoesophageal echocardiography or magnetic resonance imaging, **498**
Role of transoesophageal echocardiography in the diagnosis and management of aortic root abscess, **175**
Ruptured aortic dissection into the left atrium which presented as congestive heart failure and was diagnosed by transoesophageal echocardiography, **400**
Transoesophageal echocardiography as the sole diagnostic investigation in patients with suspected thoracic aortic dissection, **461**
Traumatic rupture of the thoracic aorta diagnosed by transoesophageal echocardiography: *letter*, **210**

Transposition of great arteries, Balloon dilatation of complete obstruction of the superior vena cava after Mustard operation for transposition of great arteries, **482**

Tricuspid valve atresia, Temporary iatrogenic fetal tricuspid valve atresia in a case of twin to twin transfusion syndrome, **457**

Tuberous sclerosis, Cardiac involvement in tuberous sclerosis, **584**

Twin to twin transfusion syndrome, Temporary iatrogenic fetal tricuspid valve atresia in a case of twin to twin transfusion syndrome, **457**

Twin-twin transfusion syndrome, Clinical and echographic features of in utero cardiac dysfunction in the recipient twin in twin-twin transfusion syndrome, **74**

U

Ultrasound
Intravascular ultrasound, an inside view: *editorial*, **97**
Use of B mode ultrasound of peripheral arteries as an end point in clinical trials: *editorial*, **501**

Umbrella closure, Primary transcatheter umbrella closure of perimembranous ventricular septal defect, **368**

Umbrella device, Transcatheter closure of interatrial communications with a modified umbrella device, **372**

Umbrella occlusion, Umbrella occlusion of persistent arterial duct in children under two years, **364**

Unstable angina
Early release of glycogen phosphorylase in patients with unstable angina and transient ST-T alterations, **125**
Raised plasma endothelin in unstable angina and non-Q wave myocardial infarction: relation to cardiovascular outcome, **436**

Upper gastrointestinal tract, Frequency of stress lesions of the upper gastrointestinal tract in paediatric patients after cardiac surgery: effects of prophylaxis, **186**

Uterine cardiac dysfunction, Clinical and echographic features of in utero cardiac dysfunction in the recipient twin in twin-twin transfusion syndrome, **74**

V

Valsalva manoeuvre, Non-smoke spontaneous contrast in left atrium intensified by respiratory manoeuvres: a new transoesophageal echocardiographic observation, **446**

Vascular disease, Role of ACE inhibitors in hypertension complicated by vascular disease, **S3.33 Sept.**

Vascular effects, Vascular effects of diuretics in heart failure, **S2.48 Aug.**

Vasovagal syncope, Head-up tilt testing, the balance of evidence: *editorial*, **216**

Ventricular activation, Nature of ventricular activation in patients with dilated cardiomyopathy: evidence for bilateral bundle branch block, **167**

Ventricular demand pacing, Issues in cardiac pacing: can agism be justified? *editorial*, **102**

Ventricular ectopic rhythm, Immunosuppressive treatment for myocarditis and borderline myocarditis in children with ventricular ectopic rhythm, **354**

Ventricular ectopy, Is ventricular ectopy a legitimate target for ablation?, **492**

Ventricular fibrillation, Effect of bystander initiated cardiopulmonary resuscitation on ventricular fibrillation and survival after witnessed cardiac arrest outside hospital, **408**

Ventricular function, Peripheral circulatory adaptations to pump failure of the heart, **S2.22 Aug.**

Ventricular late potentials, Ventricular late potentials and spontaneous ventricular arrhythmias after surgical repair of tetralogy of Fallot: do they have prognostic value?, **580**

Ventricular septal defect
Morphology of left ventricular outflow tract structures in patients with subaortic stenosis and a ventricular septal defect, **251**
Primary transcatheter umbrella closure of perimembranous ventricular septal defect, **368**
Thrombolysis of a modified Blalock-Taussig shunt with recombinant tissue plasminogen activator in a newborn infant with pulmonary atresia and ventricular septal defect, **201**

Ventricular tachycardia, Successful use of flecainide to treat new onset maternal ventricular tachycardia in pregnancy, **297**

W

Wall thickness, Effect of increased wall thickness on indices of left ventricular pump function in children, **182**

Warm-up, Is warm-up in angina ischaemic preconditioning? *editorial*, **213**

Water retention, Apparent paradox of neurohumoral axis inhibition after body fluid volume depletion in patients with chronic congestive heart failure and water retention, **534**

Wiktor stent, Clinical experience with the Wiktor stent in native coronary arteries and coronary bypass grafts, **288**

Work rate exercise, Gas exchange responses to constant work rate exercise in chronic cardiac failure, **150**

Y

Yew leaf ingestion, Cardiovascular toxicity associated with yew leaf ingestion, **92**
